

# **EXPRESS** Dehorner/ Debudders

Since 1905

## Inline Dehorner

Inline Dehorner is portable, easy to handle, safe, fast and efficient. The compact, ergonomically-designed Express Dehorner is fueled by a butane/propane mix in a handy cartridge that fits into the handle, so no cords or bulky propane tanks are required. The unit features an automatic piezo ignition and a totally enclosed combustion chamber for safety. Unit can heat to working temperature in less than five minutes, and will reach temperatures of up to 1,100°F/595°C. One fuel cartridge provides enough dehorning power for two to five hours depending on outside temperature. Constructed for heavy use, the Express will dehorn calves up to 10 weeks of age, yet weighs only 2 lbs.

- 134G** Express Portable Dehorner complete with 1 fuel cartridge, a 3/4" tip, detailed instructions and carrying case.
- 446** Fuel Cartridge (may be used with models 134, 144 and 144G).
- 11115** Tip only, 15mm (5/8") small, for goats.
- 11120** Tip only, 20mm (3/4") standard size.
- 11125** Tip only, 25mm (1") for larger animals.

**446 Fuel Cartridge**

## Pistol Grip Dehorner

Pistol Grip Dehorner is designed for easy handling, quick trigger ignition, fast heating, and easy maintenance. Dehorner features a high-power fuel mix cartridge which installs into the handle eliminating cords and bulky tanks. Maximum temperature is reached in under three minutes and will operate for approximately two hours at up to 1,200°F/650°C. Dehorner weighs 1.3 lbs. with a full fuel cartridge, making it lightweight for the user. Pistol grip design is comfortable and easy to control. Routine maintenance such as replacement of tip, gas nozzle or ignition, can all be done by the end user. Wt. 4.8 lbs.

- 144G** Express Pistol Grip Dehorner complete with reversible brass 11/16" to 13/16" tip, 1 fuel cartridge, detailed multi-lingual instructions and carrying case.
- 446** High Power Fuel Cartridge (may be used with models 134, 144 and 134G).
- 14015** Goat Tip (9/16").
- 14020** Reversible Tip (11/16" to 13/16").

**446 Fuel Cartridge**

# **EXPRESS** Udder Hair Removers

Since 1905

## Udder Hair Removers

The Express Udder Hair Remover provides an easy, fast, economical and safe alternative for removing udder hair. Express Udder Hair Remover helps reduce the spread of germs and risk of mastitis by removing unwanted udder hair; leading to faster and more thorough udder cleaning and easier teat identification for robotic milking.

Unit is set-up in less than 2 minutes and hair removal is done by drawing a figure-8 pattern 4-7" below the udder for 2 - 4 seconds. The soft flame provides a sensation of warmth and is painless to the animal.

Unit comes in two designs, making it useful for every operation. The angled burner is ideal for stanchions and the straight burner is ideal for parlors. Units come complete with hose, regulator for 14 oz. propane cylinder and flint striker.

**572-5655** Express Udder Hair Remover with Angled Wand.

**572-5656** Express Udder Hair Remover with Straight Wand.

**572-5656** Express Udder Hair Remover with Straight Wand is ideal for milking parlors.

**572-5655** Express Udder Hair Remover with Angled Wand is ideal for stanchion barns.
