

Material Safety Data Sheet
Professional Lube

Date: March 5, 2000

Section 1-----Chemical Identification-----

Glycerol
Cellulose Gum
Water

Section 2-----Information on Ingredients-----

Glycerol, CAS # 56-81-5
Cellulose Gum, CAS # 9004-32-4
Water

Section 3-----Hazards-----

Irritant, Irritating to the eyes and mucus membranes
Target organ: Kidney
Incase of contact, with eyes, rise immediately with large amounts of water and seek medical advice.
Wear suitable protective clothing.

Section 4-----First Aid-----

In case of contact, immediately flush with water for at least 15 minutes. If swallowed call a physician. If not breathing give artifical respiration. Call a physician.

Section 5-----Fire Fighting Measures-----

Nonflammable by open cup test.

Section 6-----Accidental Release-----

Wear protective clothing; absorb with san, vermiculite, or other absorbent material and place in a container for disposal. Ventilate area and wash site after material pick up.

Section 7-----Physical and Chemical Properties-----

Material is a viscous off-white to light yellow liquid with no odor. The chemical properties of this material have not been investigated.

Section 8-----Toxicological Information-----

Material may be irritating to the mucus membranes and respiratory tract. May be harmful by ingestion. or skin absorption. If sensitivity or irritation occurs from use of this product, discontinue use. The toxicological properties of this material have no been investigated.

Section 9-----Stability-----

Protect from strong oxidizing agent and bases. Hazardous combustion or decomposition products of carbon monoxide or carbon dioxide are possible when burned or ignited. will not undergo hazardous polymerization.

Section 10-----Emergency Phone Number-----

1-608-837-2858
