

# Warm-Up Calf Jacket

Two  
Year  
Warranty

- **Cordura®** outer shell & quilted 3M Thinsulate™ lining
- Removable straps for cleaning
- No belly strap provides comfort and less skin irritation
- No-Velcro design keeps jacket clean
- Contoured for best fit
- 2 year warranty
- Machine washable

Coburn's tough weather-resistant warm-up jackets have a Cordura® outer shell and quilted 3M Thinsulate™ lining which traps and holds heat while allowing moisture to escape for warm, dry and healthy calves. The jacket's design is form-fitting to allow for easy movement and better heat retention. Available in small and large for a perfect fit.

**R2801-SL** Small Calf Warm-Up Jacket, Jersey size, silver.

**R2801-BK** Large Calf Warm-Up Jacket, Holstein size, black.

## BRADEN START

# Braden Start<sup>®</sup> Bottle

**Start grain feeding early for healthier calves.**

The difference in rumen development is dramatic between calves fed grain at a very early age compared to milk alone. The earlier the rumen develops, the healthier, stronger, more disease-resistant calves will be. The Braden Start<sup>™</sup> Bottle is your key to getting this advantage.

The strong nursing instinct the first three days after birth enables the calf to quickly learn how to use the Braden Start<sup>™</sup> Bottle. Clean, dry feed is efficiently dispensed with no spilled buckets or open feed troughs where contamination can build up.

Convenient top-loading Braden Start<sup>™</sup> Bottle is made of clear, strong polyvinyl chloride guaranteed for one year against calf damage. Exclusive design of the rubber snap-on nipple lets the calf get virtually all of the feed with very little spillage. One nipple lasts for 2-3 calves. Suitable for any type of grain or starter mix with the exception of high syrup content feeds.

**BB90** Braden Start Bottle with nipple. Wt. 12 oz.

**BN90** Repl. Nipple, bulk.

**BN90-2** Repl. Nipple, package of 2.

**Calf rumen development at 4 weeks of age**

**Milk only**

**Milk and Hay**

**Milk and Grain**
