Peppermint Oil

Benefit: Releases Tight Muscles.

Peppermint is a very effective pain reliever and muscle relaxant. Peppermint (*Mentha piperita* - Finest California Peppermint) increases circulation, generates heat and reduces swelling. It is an effective circulation stimulant with localized cooling and toning properties. Peppermint Oil is proven to enhance concentration, improve coordination and sharpen reflexes.

Eucalyptus Oil

Benefit: Relief of Stress and Pain.

Eucalyptus is recommended to people suffering from lumbago, sprains, rheumatism, stiff and sore muscles, fibrosis and nerve pain. Eucalyptus (*Eucalypti aetheroleum*) is a rubefacient, skin conditioner, natural astringent, skin invigorator and penetrant. Also is a mood and concentration enhancer.

Calendula Oil

Benefit: Calms Muscles and Joints.

Calendula, aka Marigold Oil, has anti-inflammatory properties that can help and prevent muscle spasms. It works well on sprained muscles and bruising. Its anti-inflammatory action helps lessen swelling from injury. Calendula (*Calendula officinalis*) increases circulation, has anti-inflammatory properties, helps with swelling and bruising and is an effective skin toner.

Tea Tree Oil

Benefit: Helps with Infection.

Tea Tree Oil is known as a topical antiseptic, is anti-fungal and has infection-reducing benefits. Tea Tree Oil (*Melaleuca alternifolia*) is a skin conditioner, soothing and disinfecting skin. Capable of penetrating deep into the skin with anti-inflammatory properties, it is analgesic and has wound-healing qualities.
